

Horses consigned to the 2019 Van Norman & friends Production Sale September 21 in Elko, Nevada

YY Showtime Shine
2019 palomino colt

Sire: SJR Missin Diamonds
Dam: JP Amazen Boon

We're excited to offer this colt. He has a ton of eye appeal, and everything in his pedigree says he has all the makings of an outstanding ranch horse, maybe even a show prospect. He'll be a dandy—don't miss him!

YY Zippin Diamnds
2019 chestnut colt

Sire: SJR Missin Diamonds
Dam: JP Colonels Lil Zip

This colt is as just about as solid built as they come. His dam is a Van Norman mare that has produced some very nice foals for us, and we believe this should be an excellent cross. He should have the right combination of substance and style for just about anything.

YY Silver Due
2019 grey colt

Sire: Doctor Peppered
Dam: YY Gun In Her Garter

We've really liked this cross in the past. This colt is the one that wants to leave his mama in the field and come check out what you're doing, plus he's nice and correct. He will be a good all-around prospect.

YY Tucker To A T
2019 bay filly

Sire: Doctor Peppered
Dam: JP Tuckers Blue

This filly's dam is a blend of Leroy Horn and older Van Norman breeding, and has produced some very nice foals for us. We kept this filly's full sister as a broodmare replacement after Rolly started her, as she is the kind we want to raise and ride; this filly should be no different.

YY Just A Sin Away
2019 sorrel colt

Sire: French Flit Jae
Dam: Camiseta Sin Wagon

With his combination of cow and arena breeding, this colt should be a great all-around ranch prospect. We have been loving the Frenchie colts—very personable and good-minded, but athletic with quite a bit of go to them. The chrome is a nice bonus!

YY Coyote Style
2019 sorrel colt

Sire: French Flit Jae
Dam: PHC Style My Chex

This should be a nice cross. We are loving the Frenchie colts—they are friendly and quiet, love people, and easy to start, but are quite quick and athletic and want to really travel out and go. The dam comes from Katie Breckenridge's great program.
